## NEW VERSION

## CLASSIC VERSION

Facebook has several options to manage the settings of your account. You can review and change the settings by clicking on the down arrow in the upper right corner of your account and then selecting **Settings** (in the Classic Facebook version) or **Settings & Privacy** (in the New Facebook version). From here, you can review numerous different options as listed below.

**Login**

- Change password**  
It's a good idea to use a strong password that you're not using elsewhere
Edit
- Save your login info**  
It will only be saved on the browsers and devices you choose
Edit

Facebook has several security settings that can help you monitor the security of your account. To control the security and logins, use the settings shown here.

### Two-Factor Authentication

- Use two-factor authentication**  
On • We'll ask for a code if we notice an attempted login from an unrecognized device or browser.
Edit
- Authorized Logins**  
Review a list of devices where you won't have to use a login code
View
- App passwords**  
Use special passwords to log into your apps instead of using your Facebook password or login codes.
Add

### Setting Up Extra Security

- Get alerts about unrecognized logins**  
We'll let you know if anyone logs in from a device or browser you don't usually use
Edit
- Choose 3 to 5 friends to contact if you get locked out**  
On • Your trusted contacts can send a code and URL from Facebook to help you
Edit

### Advanced

- Encrypted notification emails**  
Add extra security to notification emails from Facebook (only you can decrypt these emails)
Edit
- Recover external accounts**  
Recover access to other sites with your Facebook account
Edit

Add extra security to your account every time you log in by applying two-factor authentication

Click Edit and select Get Notifications to get alerts when your account is logged into from an unknown device

### Manage Blocking

<b>Restricted list</b>	When you add a friend to your Restricted list, they won't see posts on Facebook that you share only to Friends. They may still see things you share to Public or on a mutual friend's timeline, and posts they're tagged in. Facebook doesn't notify your friends when you add them to your Restricted list. <a href="#">Learn more</a>	<a href="#">Edit List</a>
<b>Block users</b>	Once you block someone, that person can no longer see things you post on your timeline, tag you, invite you to events or groups, start a conversation with you, or add you as a friend. Note: Does not include apps, games or groups you both participate in.	
	<div> <b>Block users</b> <input type="text" value="Type a name"/> <input type="button" value="Block"/> </div> <p>You haven't added anyone to your block list.</p>	
<b>Block messages</b>	If you block messages and video calls from someone here, they won't be able to contact you in the Messenger app either. Unless you block someone's profile, they may be able to post on your timeline, tag you, and comment on your posts or comments. <a href="#">Learn more</a>	
	<div> <b>Block messages from</b> <input type="text" value="Type the name of a friend..."/> </div> <ul style="list-style-type: none"> <li><a href="#">Emily Whitehead</a></li> <li><a href="#">Matthew Green</a></li> <li><a href="#">Caitlin Anderson</a></li> <li><a href="#">Kaitlin Smith</a></li> </ul>	
<b>Block app invites</b>	Once you block app invites from someone, you'll automatically ignore future app requests from that friend. To block invites from a specific friend, click the "Ignore All Invites From This Friend" link under your latest request.	
	<div> <b>Block invites from</b> <input type="text" value="Type the name of a friend..."/> </div>	

You can block and restrict who sees your posts and information through the Blocking settings.
